

1.

Write the CSS file for the following HTML page ?

CSS background-color example!

This is a text inside a div element.

This paragraph has its own background color.

We are still in the div element.

```
<!DOCTYPE html>
<html>
  <body style="background-color:rgb(146, 190, 183);margin:0px;">
    <h1 style="background-color:rgb(56, 16, 232);font-size:
2.5em;padding:20px; margin:0px;">
      CSS background-color example!</h1>
    <p style="background-color : rgb(153, 221, 238);padding:20px;
font-size: 1.5em;margin:0px;">This is text inside a div element.</p>
    <p style="font-size: 1.5em;" >This paragraph has its own background
color.</p>
    <p style="background-color : rgb(201, 209, 210); padding:20px;font-
size: 1.5em; margin:0px;">We are still in the div element.</p>
  </body>
</html>
```

2.

Write the CSS file for the following HTML page?

This is heading 1

This is heading 2

This is heading 3

This is heading 4

```

1  <!DOCTYPE html>
2  <html>
3  |   <body style="background-color: ■ rgb(187, 235, 243)">
4  <h1>This is heading 1</h1>
5  <h2><del>This is heading 2</del></body></h2>
6  <h3><u>This is heading 3</u></h3>
7  <h4>This is heading 4 </h4>
8  </body>
9  </html>
10

```

3. Write the CSS file for the following HTML page to display the text ?

THIS IS SOME TEXT.

This is some text.

This is some text.

```

1  <!DOCTYPE html>
2  <html lang="en">
3  |   <head>
4  |   |   <meta charset="UTF-8">
5  |   |   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6  |   |   <title>Assignment</title>
7  |   |   <style type="text/css">
8  |   |   |   div{
9  |   |   |   |   line-height: 80%;
10 |   |   |   }
11 |   |   |   </style>
12 |   |   </head>
13 |   |   <body style="background-color: ■ lightblue">
14 |   |   |   <div>
15 |   |   |   |   <p id="css1">THIS IS SOME TEXT</p>
16 |   |   |   |   <p id="css2">This is some text.</p>
17 |   |   |   |   <p id="css3">This is some text.</p>
18 |   |   |   </div>
19 |   |   </body>
20 |   </html>

```

4. Write the CSS file for the following HTML page to Add different colors to visited/unvisited links

This is a link

```

1  <!DOCTYPE html>
2  <html lang="en">
3      <head>
4          <meta charset="UTF-8">
5          <meta name="viewport" content="width=device-width, initial-scale=1.0">
6          <title>This is a link</title>
7          <style type="text/css">
8              {
9                  background-color: lightblue;
10             }
11             a{
12                 color: red;
13                 text-decoration: underline;
14             }
15         </style></head><body>
16             <a href="#">This is a link</a></body></html>

```

5.

Write the CSS file for the following HTML page?

Firstname	Lastname	
Peter	Griffin	
Lois	Griffin	

```

1  <!DOCTYPE html>
2  <html lang="en">
3      <head>
4          <meta charset="UTF-8">
5          <meta name="viewport" content="width=device-width, initial-scale=1.0">
6          <title>Assignment5</title>
7          <style type="text/css">
8              table, th, td {
9                  border: 1px solid black;
10                 border-collapse: collapse;
11             .A{
12                 border: 3px solid black;
13             }
14         </style>
15     </head>
16     <body>
17         <table >
18             <tr>
19                 <th class="A">Firstname</th>
20                 <th class="A">Lastname</th>
21             </tr>
22             <tr>
23                 <td class="A">Peter</td>
24                 <td class="A">Griffin</td>
25             </tr>
26             <tr>
27                 <td class="A">Lois</td>
28                 <td class="A">Griffin</td>
29             </tr>
30         </table></body></html>

```

6. Write the CSS file for the following HTML page?

Firstname	Lastname	Savings
Peter	Griffin	\$100
Lois	Griffin	\$150
Joe	Swanson	\$300
Cleveland	Brown	\$250

```

1  <!DOCTYPE html>
2  <html lang="en">
3      <head>
4          <meta charset="UTF-8">
5          <meta name="viewport" content="width=device-width, initial-scale=1.0">
6          <title>Assignment6</title>
7          <style type="text/css">
8              .table{
9                  border: 2px solid green;
10             }
11             #A{
12                 background-color: green;
13             }
14         </style></head><body>
15             <table class="table">
16                 <tr>
17                     <th class="table" id="A">Firstname</th>
18                     <th class="table" id="A">Lastname</th>
19                     <th class="table" id="A">Savings</th>
20                 </tr>
21                 <tr>
22                     <td class="table">Peter</td>
23                     <td class="table">Griffin</td>
24                     <td class="table">$100</td>
25                 </tr>
26                 <tr>
27                     <td class="table">Lois</td>
28                     <td class="table">Griffin</td>
29                     <td class="table">$150</td>

```

```

30                 </tr>
31                 <tr>
32                     <td class="table">Joe</td>
33                     <td class="table">Swanson</td>
34                     <td class="table">$300</td>
35                 </tr>
36                 <tr>
37                     <td class="table">Cleveland</td>
38                     <td class="table">Brown</td>
39                     <td class="table">$250</td>
40                 </tr>
41             </table>
42         </body>
43     </html>

```

7. Write the CSS file for the following HTML page to set the color outline.

Note: IE8 supports the outline properties only if a !DOCTYPE is specified.

```
<!DOCTYPE html>
<html><head><style>p{
    border: 1px solid rgb(215, 122, 122);
    outline-style: dotted;
    outline-color: green;
}

    </style></head><body><p class="ex2"><strong>NOTE:</strong>IE8 supports the
outline properties only if a !DOCTYPE is specified.</p>
    </body>
</html>
```

8. Write the CSS file for the following HTML page to set the border width of the page.

Some text.

Some text.

Some text.

```
<!DOCTYPE html>
<html>
    <head>
        <style>p.one {
            border-style: solid;
            background-color:rgb(203, 237, 249);
            border-width: 5px;}p.two {
                border-style: solid;
                background-color:rgb(178, 224, 241);
                border-width: medium;}p.three {
                    background-color:rgb(173, 215, 230);
                    border-style: solid;
                    border-width: 2px;}
```

```
        </style></head><body><p class="one">Some text.</p><p  
class="two">Some text.</p><p class="three">Some text.</p>  
        </body>  
    </html>
```
